

PROFESSIONAL SUMMARY

Passionate Full Stack Web Developer with strong expertise in building scalable and efficient web applications. Proficient in ReactJS, CSS, Express, Node.js, and MongoDB, with a keen focus on delivering production-level code. Skilled in frontend development, creating responsive and intuitive user interfaces using ReactJS and modern CSS frameworks. On the backend, adept at building RESTful APIs and microservices with Node.js and Express, integrating seamlessly with MongoDB for dynamic, data-driven applications. Committed to best practices in web development, performance optimization, and delivering clean, maintainable code.

TECHNICAL SKILLS

- Interpersonal skills
- Team Work
- Creativity
- Leadership
- Problem Solving
- Self Learning

TECHNICAL SKILLS

- HTML | CSS
- JavaScript
- React | Redux
- Express
- Node.js
- MongoDB

PROJECTS

EAZZYSHOP – [GitHub](#)

EazzyShop is a full-featured e-commerce platform built with the **MERN stack** (MongoDB, Express.js, React, Node.js), delivering a secure, user-friendly online shopping experience.

- **Advanced Search and Filters:** Implemented dynamic product search with category filters, price range, star ratings, reviews, and sorting options, including today’s best deals and most selling products.
- **Secure User Authentication:** Built **JWT-based authentication** for user login, signup, and session management, ensuring data security and access control.
- **Cart and Payment Integration:** Developed a real-time shopping cart with seamless **payment gateway** integration for secure transactions.
- **Enhanced User Experience:** Featured brand sections, product sorting by ratings and reviews, and customizable price filters to improve product discoverability and user satisfaction.

Make My Trip –[GitHub](#)

- **User Authentication:** Implemented **JWT-based authentication** using **Node.js** and **Express** for secure login and registration. Encrypted passwords with **bcrypt** and integrated **RBAC** for user permissions in **MongoDB**.
- **Flight and Hotel Search:** Developed dynamic search with **React** for real-time filtering and sorting by price, location, and availability. Optimized **RESTful API** calls for efficient data retrieval from **MongoDB** using **Node.js**.
- **Booking Management:** Built a **React**-based dashboard for managing bookings with real-time updates. Developed secure **Node.js** APIs for booking logic and integrated **MongoDB** for data persistence.
- **Admin Panel:** Created a secure **admin panel** with **JWT authentication** and **RBAC**. Implemented **CRUD operations** with **Node.js** and **MongoDB** for managing flights, hotels, and bookings, enhancing UX with real-time updates.

EDUCATION

B.E in Mechanical Engineering. Savitribai Phule University, Pune.	2019–2023
HSC board Dnyansamwardhini Jr. College ,Shirwal.	2018–2019

CERTIFICATION

Full Stack With JavaScript. <a href="#">Link</a>	Apr 2024-Aug 2024
<ul style="list-style-type: none"><li>• Completed a comprehensive 12-week full-stack development program that provided extensive hands-on experience through project-based learning.</li><li>• Gained proficiency in front-end and back-end technologies, including React, Node.js, MongoDB, and Express.</li><li>• Developed multiple full-stack web applications, implementing RESTful APIs and responsive UI design.</li></ul>
